TAKE A QUANTUM LEAP TOWARDS EXCELLENCE

Gain Mastery in the Accelerated Human Change Technologies of NLP, Time Empowerment™ Techniques, and Hypnosis

Neuro-Linguistic Programming, Time Empowerment® and Hypnosis are innovative approaches to understanding and directing human experience, communication, and behavior. These sciences are the leading-edge technologies for accelerated human change. We finally understand the relationship between mind, body, emotions, and actions. Thanks to these technologies, we can create what we want in virtually every realm of our lives. We also know that we can change our lives by controlling how we process our thoughts and emotions.

In our trainings, we will guide you in mastering and using these new technologies for your personal benefit. In addition to that, we will teach you how you can assist others in producing the changes they want for themselves.

Why you should take a training with Matthew B. James and The Empowerment Partnership

We’ve been conducting NLP trainings since 1982. According to Dunn and Bradstreet figures since 1992, we’re one of the largest NLP training organizations in the world. While the fame of a trainer or organization doesn’t ensure quality, it can be an important indicator of the value provided. After all, it is a following of people that creates popularity. Year after year, we receive a very high number of referrals and repeat customers. We consistently receive the highest ratings on our evaluations. We have achieved this by presenting excellent trainings and producing effective trainers—after all, that’s what we’re all about.

What the media has to say:

"NLP cannot be dismissed as just another hustle. Its theoretical underpinnings represent an ambitious attempt to codify and synthesize the insights of linguistics, body language, and the study of communication systems." – *Psychology Today*

"(NLP) does offer the potential for making changes without the usual agony that accompanies these phenomena. . . Thus it affords the opportunity to gain flexibility, creativity, and greater freedom of action than most of us now know..." – *Training and Development Journal*

"... real estate brokers and salespeople use Neuro-Linguistics to enhance their communication skills and provide them with more choices when working in a difficult situation." – *Real Estate Today*
